

MOTION

The Port of Los Angeles has been the number one container port in the United States each year since 2000, and served as a gateway for international trade in North America. In 2022, the Port of Los Angeles remained one of the busiest in the world as laborers worked tirelessly to address an unprecedented surge in imports.

The LA Waterfront at the Port of Los Angeles is undergoing a massive redevelopment effort aimed at increasing open space and improving public access to the waterfront. The redeveloped LA Waterfront will create recreation, dining, and entertainment opportunities for locals and visitors.

Since 2017, the Executive Director of the Port of Los Angeles has presented quarterly updates to the Trade, Travel, and Tourism Committee on the status of department activities, such as project updates, COVID-19 response, finances, and operations. Now that the Trade, Travel, and Tourism Committee is composed entirely of first-time Councilmembers, it is important to affirm the Committee's commitment to continuing this direct, public dialogue.

I THEREFORE MOVE that the City Council request the Executive Director of the Port of Los Angeles to provide quarterly reports to the Trade, Travel, and Tourism Committee on the status of department activities.
