Comments for Public Posting: Just reverse the mandate. People can get Covid with or without getting vaccinated. It does NOT STOP transmission. Vaccinated can be asymptomatic as well. If you look at the data it shows you that the more Covid shots you get the more you get sick. This was all supposed to be to save grandma. But the vaccinated can transmit Covid too and be symptomatic. There is no need for a mandate. It's like the flu now. Respect other people's religious beliefs and the United States Constitution. Rescind Mandate 187134!

Comments for Public Posting: What are we waiting on regarding this mandate/ordinance, whatever you call this useless excuse to have people suffer, the agenda is up, you careless, ruthless people in council know what you're up to, in no way does this ordinance have any support to help in anyway, council members are playing with lives and hoping people run out of money for legal proceedings, with God All things are possible, this too shall pass, seriously you need to end this sham of an ordinance
