Comments for Public Posting: The Mandate Needs to be canceled NOW!! It is disgusting for you the city government to use this MANDATE as a RANSOM for hardworking people that are dedicated to their job and family. The city of Los Angeles is ran by COWARDS with no MORALS, ETHICS or fear of GOD. Bring back every city worker that was fired over this MANDATE...

Comments for Public Posting: The Ordinance 187734 need to be rescinded. The City of Los Angeles cannot afford to lose any employees. The people and the employees are not going to support the service declining. The LADWP, LAPD and LAFD CANNOT be replaced. These men and women are highly skilled and are willing to work in Los Angeles. Please do not fire one you them or you will put the city in jeopardy of chaos with no water, no power, no protection, and no security. Thank you
