**Comments for Public Posting:** CD13 is in desperate need of an increase in public transportation options, as well as improved dedicated bike lanes. As a long time constituent and biker, I often feel very unsafe not only due to the lack of accommodations for bikers, but also due to the unmaintained roads. Several months ago my front tire got stuck in a massive crack on Glendale Blvd at Santa Ynez and I was thrown off my bike. I am still recovering from a rib injury from that incident. If the roads had been paved, and if there were clear bike lanes, things like this would happen a lot less. Thanks for your time.

**Comments for Public Posting:** Any opportunity to improve walkability and bikeability in LA should be taken! Lincoln Blvd is a critical north-south connection and the bridge desperately needs to be improved for all modes of transit! There should be no delays in advancing this project!
