**Comments for Public Posting:** The Legislative Committee of the LA Chapter of Climate Reality Project would like to express their support for the motion 23--129, Motion to Preserve Senderos Canyon. Our Legislative Committee endorses exploring the proposed options for the public purchase of Senderos Canyon. We strongly support efforts by the City of LA to address both the global climate and biodiversity crises by conserving available California land. We strongly feel that this proposal to explore options for purchase of this tract of land is worthy of our community's support and endorsement. - Andrew Ellis, LA Chapter Legislative Committee Chair - Climate Reality Project
