Comments for Public Posting: I see the City Council continues it racist agenda of making our community less safe- Officers know their communities and the problems- it isn't racist profiling-this is the expertise and experience which officers use to spot trouble- The minority communities have suffered the most under City Council racism and lunatic defunding and abetting if crime- go ahead- pass this just like every other insane legislation you pass which continue to destroy the safety and livability of our community- I am sure you all have heard of the "Broken Window" theory- although you would hate it- stopping small crimes- before they become bigger problems- but you don't want that - unless it is for yourselves- like Monica and Nury having police protection at their homes- while denying such security for the rest of us- this council is entirely racist- attacking the safety of minority communities in order to abet criminals-
