Re: Support for Los Angeles City Council File Number 23-0129 Save Senderos Canyon

I, Robin Greenberg, President of The Bel Air Hills Association, located South of Mulholland, North of Sunset, speaking for myself, urge your support of Los Angeles City Councilmember Katy Yaroslavsky's motion to determine available strategies to preserve the 260-acre Senderos Canyon property (also known as Hoag Canyon) and identify various options to fund the purchase of the property, including potential County, State and Federal funding sources. The Santa Monica Mountains Conservancy calls this land one of the most ecologically significant properties in the City of Los Angeles, and says that the Canyon's natural values contribute greatly to the Eastern Santa Monica Mountains.

Dear Honorable Legislators:

If there was one action you could take that would unquestionably have a positive impact on the residents of Los Angeles County for generations to come, would you take it?

Imagine New York City without Central Park, San Francisco without Golden Gate Park or Los Angeles without Griffith Park. Leaders with foresight and vision set aside these spaces from development and now they provide respite from city life in addition to clean air and biodiversity.

There is one undeveloped canyon left in Los Angeles County that should be preserved. Senderos Canyon is a green space which provides a wildlife corridor for threatened species, reduces wildfire risk, improves air quality and enhances biodiversity. Please don't allow development which would reduce carbon storage, increase heat island effects, negatively impact air quality, reduce the area for groundwater recharge, and increase the risk of flood and debris flow, the latter of which California has already suffered greatly this year.

Please take action now to ensure a better environment for your children and grandchildren.
