

# MOTION

The Board of Harbor Commissioners is anticipated to approve at its meeting of March 30 several agreements for as-needed air quality services at the Port. The current agreements are set to expire on April 6. However, extensions of the new contracts cannot be executed until after the April 19 Council meeting concludes due to the Council's March 28 to April 7 recess.

All the involved firms providing services support the Harbor Department with the implementation of the CAAP including: identifying new and emerging emission reduction technologies; preparation of health risk assessments for CEQA; assisting with the annual Port-wide emissions inventory and grant writing.

Due to the timing issues of the Harbor Department, immediate action is needed for the Council to waive review of the above action in order that the service contracts may go into effect prior to the April 6 termination date of the existing contracts.

I THEREFORE MOVE that pursuant to Section 245(b) of the Los Angeles City Charter, the Council hereby RESOLVE to waive review of the anticipated action of the Board of Harbor Commissioners to approve personal services agreements with Burns & McDonnell Engineering Company, Inc.; Ensafe Inc.; ICF Incorporated, LLC; Ramboll US Consulting, Inc.; Starcrest Consulting Group, LLC; and Tetra Tech, Inc. for as-needed air quality services, as further detailed in the text of this Motion.
