Comments for Public Posting: Hello, I urge you to pass any measure to better address and reduce the epidemic of Catalytic Converter thefts in our neighborhoods. The impact of prosecution of crimes is necessary to reduce crime - not rocket science. No exceptions in law enforcement can be made for the economic situation of the criminals. You were elected by law abiding citizens to combat criminals, not the other way around. I will remember how my representative voted, and will keep that in mind for the next election, as well as remind my friends of the same. Do everything necessary to reduce this crime and punish the perps.
