Comments for Public Posting: Please help save the PDC . It's the one unique place to me to take my family and friends when they come from out of state to visit. Birthday days Anniversary's simply living life we go there to celebrate. I miss it deeply the may sound strange however I've never rode on a train in life this far, being a Cancer patient I find the PDC a close fit to my being on a train. The ambience, food and nostalgia of the PDC is a place I'm willing to drive miles for and my husband and I have, we sit for hours it's a place to dine in peace.

Comments for Public Posting: Pacific Dining Car is a legend in Los Angeles and our family has been dining there for at least 45 years. They were open 24/7/365 without fail and my husband and I would meet our good friends there for Christmas morning breakfast. It was wonderful, the food, the ambiance and the warm, friendly staff. We miss this classic steakhouse being open and serving outstanding food; please help them! Thank you!
