

MOTION

TRADE, TRAVEL AND TOURISM

The Harbor Department operates as a landlord port with more than 200 leaseholders. The proper function of the Port of Los Angeles is integral to the national economy, and plays a vital role in the world's economy. As an economic engine to the City of Los Angeles, Port of Los Angeles' benefits for the local residents must be equally prioritized.

Analyzing the parcels and its land uses that are available for redevelopment is a significant interest to the surrounding communities of San Pedro and Wilmington. Community promoting uses, such as a work source center, where residents can develop skills and engage in job training is needed in the community of Wilmington, particularly on the eastside of Wilmington. Further inspection of the available parcels and leases at the Port of Los Angeles could provide a helpful perspective that would benefit Wilmington, the Harbor Department, and the City as a whole.

I THEREFORE MOVE that the City Council instruct the Harbor Department, with assistance from the City Administrative Officer, to report with an inventory of available Port of Los Angeles owned property in Wilmington.

I FURTHER MOVE that the City Council instruct the City Administrative Officer to commission an audit of the Harbor Department's leases at the Port of Los Angeles.
