**Comments for Public Posting:** I am posting my comments in full support of the HCR (the Hillside Construction Regulation Law) to ask that it be voted in and implemented, PLEASE! The nonstop dangerous overlapping of construction projects (over 300 on Mt. Washington) have been continuous and, awful. We are desperate to have some protections in place (and to be enforced) to counter act the construction abuse that we have endured over the last 5 years. It isn't fair and it is not helping the housing shortage when every home built is over 2 million dollars, anyway. It's out of control. Just the constant blocking and stacking of cement trucks on our narrow streets (they get their waivers to not improve the street, too) should be enough. Emergency vehicles of all kinds cannot get through! Nowhere to turn around and back up, completely blocked. This happens constantly! My street alone has 4 projects making life miserable on a daily basis for the last 3 years. Please pass this law. It's the least anyone could do. Thank you.
