Comments for Public Posting: Dear Members of the PLUM Committee, As a resident of Mt. Washington for over 20 years I am acutely aware of the danger of living in a Very High Fire Hazard Zone with sub standard hillside streets. We have had a few fires on the hill with frightening consequences. Combine that with the continuous construction of what seems like every vacant lot (regardless of its steepness), that brings construction vehicles with what seems like little coordination or regulation, the hazards to the residents are multiplied. I support the Hillside Construction Regulations being applied to our area. I see no reason why these regulations, in effect in the West Side communities, should not be realized in NELA to help keep us safe & provide an increased quality of life to the constituents of CD 1. Sincerely, L K McLeod 666 Pheasant Dr. L.A., CA 90065

Comments for Public Posting: As a mount Washington resident I ask that the Planning and Land Use Management committee and the City Council pass the HCR to protect the health and safety of our hillside very high fire risk community and its fragile infrastructure.
