Comments for Public Posting: I am in support of building the new school for valor academy elementary school. The students at VAES deserve a permanent place to call home. Many students take the bus, uber, or find rides to school. The new building in would put these families closer to the middle school and high school easing their commute. The new school would open up many enrichment opportunities for the students in the neighborhood.

Comments for Public Posting: Hi, I am in favor of the new campus being built for Valor Academy Elementary School. I heard a lot of people who opposed the building, were people not living in the area, or had nothing to do with the school. These were contractors and union reps from companies the school was not going to use in building the new campus. I believe Valor should have their new school built on this land, because these children deserve a place they call home. For most of these students, the only family and safe place they have is their school.

Comments for Public Posting: Hello, my name is Lacey Bianco and I am a teacher at Valor Academy. I am writing in support of the new building at 15526 Plummer Street in North Hills. This campus is needed so our studnets have the same opportunities to learn and grow as students at neighboring schools. Right now, our classrooms are too small to fit the number of students we have which doesn't give them space to explore and accommodate the kinesthetic needs of our learners. We have limited space for clubs and enrichment classes that help to create a well rounded individual. At Valor Academy we do the best we can to develop the whole child with not only academic development, but social and emotional, behavioral, and physical development as well. Unfortunately, this task becomes very difficult due to the nature of our small classrooms and limited campus space. This new building would change the lives of hundreds of underprivileged children currently enrolled at Valor academy and hundreds of future valor students. I urge the council to approve the school building. Thank you for your time and consideration.

Comments for Public Posting: As part of the Valor community I believe the Council should deny all the appeals against building Valor Academy Elementary's new school site. This is a great opportunity to create consistency for our students and family in the community.
