Comments for Public Posting: I am writing to you as a valley resident in hopes that you will join our community by passing Valor Elementary Academy's new campus project on 11526 Plummer Street. I grew up and have lived my whole life in the valley. I've witnessed the great impact a campus such as Valor can have on our valley youth. Our city can be a powerful place full of opportunities and success, if we grant a campus such as Valor to be built. Valor Elementary serves many underprivileged families and students already in this community. Valor allows students to have a high-quality education, no matter their location and social status. Valor does not only focus on giving students a high-quality education in academics but also focuses on social-emotional learning which is what these students need. All of this has already been possible in such a compact place, so I can only imagine how many resources the school can bring to our community if it expands. Valor will be a great asset to our community.

Comments for Public Posting: Arlene has been with Valor since 1st grade. She is now a 4th grader and throughout all those years I've loved how tentative and really friendly the staff and teachers have always been. There is nothing I would change about it other than possibly having more resources, (bigger playground, more restrooms) All and all, I love this school and the staff.
