We must embrace our history for all future generations. We already have twelve elementary schools in North Hills and only one park. More importantly an historical site and a park will serve the public for years into the future - teaching history as a living example of how the San Fernando Valley has developed from an agricultural ranching mecca into a remarkable and thriving ethnically diverse community. Please teach our future generations of children the value of nature by creating a preserve and sanctuary for birds, flora, trees - a true educational living experiential space - a living museum. Please reject the Letter of Determination issued by City Planning.
