DISCUSSION:

The petitioner, CIM Group, Borna Nassab, representing the owners of the properties, 2231 S Western LA LLC, is requesting the City to quitclaim a sanitary sewer easement lying on 2211-2231 S. Western Avenue, as shown crosshatched on Exhibit "A".

The petitioner has requested the quitclaim of a sanitary sewer easement due to relocation of facilities outside the property.

The request for the quitclaim of the easement can be granted since the public improvements will be relocated under B-permit BR004844 and its retention is no longer necessary.

The easement for sanitary sewer purposes being quitclaimed,

lying on the northern 10 feet of the 20-foot wide driveway located south of Lots 28 to 30, inclusive, was dedicated by the deed recorded in Book 3926, page 267, of Deeds, in the Office of the County Recorder of Los Angeles County.

The Central District Office of the Bureau of Engineering stated in its communication dated January 12, 2023, that the office has no objection to the Quitclaim of the 10-foot wide sanitary sewer easement. The applicant shall complete the B-permit BR004844 for the relocation of the terminal maintenance hole.

The Wastewater Conveyance Engineering Division of the Bureau of Engineering stated in its communication dated January 18, 2023, that the office defers to Central Engineering Office's B-Permit.

The City Engineer is also requiring the petitioner to provide payment of the recording fee as outlined under Recommendation "A" in a manner satisfactory to the City Engineer.

ENVIRONMENTAL DETERMINATION:

The Bureau of Engineering has determined that the quitclaim of the easement for sanitary sewer purposes is exempt from the California Environmental Quality Act of 1970, pursuant to the categorical exemptions included in the City of Los Angeles Guidelines under Article III, Class 5(4).
