**Comments for Public Posting:** We need more bans on RV's. There is absolute FILTH all over our city, and the people in these vehicles are parking them all over, creating messes on our sidewalks and environmental hazards (ballona wetlands, anyone?). Also, why should i be ticketed or required to pay for a meter or parking pass while these people live on the sidewalks Scott free?! Enough already. Force them into shelters or someplace off our roads/streets.

**Comments for Public Posting:** Let's stop and talk about how LA deals with vehicle dwellers! Why isn't this going through the Housing & Homelessness Committee? Why does CD11 have the most Oversized Vehicle Signs -- just moving the problem to other CDs? This is displacement without any solutions. There are only 18 safe parking sites in the City. Only 7 of those sites accept RVs. And certainly no repair programs to make the RVs eligible for a Safe Parking program. More Angelenos than ever live in RVs and other oversized vehicles. Why? DUH No affordable housing. And lets just stop the BS about budget. If we can spend so much to displace & criminalize poor people, give signing bonuses & housing stipends to LAPD.... we can have community owned housing & public housing options. Say NO to this kind of displacement and criminalization targeting homelessness without even alternative "resources" like Safe Parking and vehicle repairs. Oh and that hot paved parking lot with no shade under the LAX flight path is not suitable for Safe Parking.
