

# Safe Routes to School (SRTS) Strategic Plan City of Los Angeles • Fact Sheet

## Principles and Goals

- No child shall be injured or killed by a vehicle when walking or bicycling to/from school.
- Increase the number of students walking and bicycling to school to improve public health and student achievement and relieve traffic congestion.
- Maximize City's competitiveness in funding applications and increase City's share of SRTS-related funds.

## Objectives

- Use a data-driven approach to rank order nearly 500 LAUSD schools within the City of LA to identify those with the most need.
- Formalize a kit-of-parts for infrastructure and non-infrastructure strategies to improve the walking and bicycling environment.
- Enhance collaboration and communication between City and LAUSD.

*Safe Routes to School is an international initiative to safely increase the number of children who walk or bike to school by providing funding for pedestrian-friendly street engineering, education and encouragement programs directed towards students, parents and our communities.*

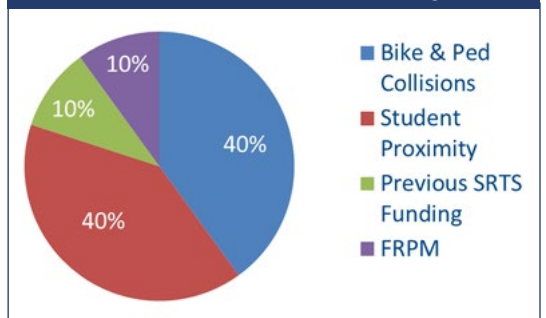

## Background

- In LA County, 33% of school-aged children walk/bike to school.
- In the City of LA, school age children (ages 5-17) account for 19% of all pedestrian-related collisions and 18% of all fatally or severely injured pedestrians.
- To date, the City of LA has received only 6% of the Statewide total SRTS (State/Federal) funding, while comprising 10% of the total State population.

## Prioritization Methodology

- To make the most of City resources, the SRTS Strategic Plan will initially focus on the Top 50 LAUSD schools with the highest need, prioritized by: (A) # of vehicle-pedestrian/bike collisions; (B) # of students who live within 1/4 mile from school; (C) # of students eligible for Free-Reduced Price Meals; and (D) lack of prior state/federal SRTS funding.
- Templates developed through this Plan will offer a suite of infrastructure (engineering) and non-infrastructure (education, encouragement, enforcement, evaluation) countermeasures and resources schools and communities city-wide can apply within their own neighborhoods.

### Prioritization Methodology for LAUSD Schools within the City of LA

## Next Steps

- Create and complete individualized School Travel Plans for LAUSD schools within the City of LA, starting with the Top 50, to source funding
- Develop infrastructure and non-infrastructure countermeasures toolbox
- Create GIS-based data and project management tools
