Comments for Public Posting: I am speaking on behalf of the appointment of Ilissa, Gold, Jamie, Del, Rio, and Haley Feng to the planning and land, use management commission as appointed by mayor Karen Bass. I have met all three of them and I'm deeply impressed with your commitment to addressing housing. I am a physician and for decades of taking care of patients with housing insecurity in urban California. Just walking here today from my home across a number of tents and encampment. I trust that the mayor is working hard to jumpstart this process, and I eagerly want to see these three appointees get to work to improve the supply of housing for Angelenos.
