Council File No: 19-1020

Comments for Public Posting: I am in support of Item 5, the establishment of a Commission on Lived Experience with Homelessness. Los Angeles is in the midst of a homelessness crises and the usual methods to curb the rates and provide outreach have not been successful, there are extreme shortcomings and failures in the way we manage this issue and provide for the members of our community. This commission will provide the unique experience of being run by those whoa re or experienced homelessness in order to guide efforts in a way that is realistic and sensitive to the needs of the target population. I support this item and encourage the council to build and support this commission.
