Comments for Public Posting: As a long-time resident of Eagle Rock, the RV situation has gotten out of hand and something needs to be done to protect the residents and taxpayers of the city. Residents can no longer walk down the street and feel safe as the entirety of their neighborhood has been overtaken by the RV community. Drugs are being sold right outside of their homes, the unhoused individuals have gotten aggressive and violent and we implore the City of LA to do something to protect the taxpayers and the residents. We cannot walk down the streets anymore as they are littered with trash, tents, junk, human feces and worse. Please do something to fix this problem.

Comments for Public Posting: I would like to file my support of this council file. It would be a huge protection to the residents of these streets who have been dealing with the health and security hazard that presently affect the community from RVs that dont move. There is no reason that residents on these blocks should have to bear a burden of constant strangers in their neighborhood at all hours. That they should have to handle the smell of trash and waste in the heat of summer non stop. Giving this area the protection of vehicles having to move would alleviate the struggle it is to keep the area clean and safe. These signs are not in any way an indictment or a struggle for those experiencing unhoused situations. It is a statement that RVs are not allowed to set up as if they have a deed to the land.

Comments for Public Posting: This street is a mess and makes the entry to the Sprouts and local business unsafe with the homeless crowding the entrances
