I write in for last hearing and I hear that the City approve the project which is good thing. Now I hear that the City is thinking of no approving the project? Why? This is ridiculous. Approve the project please now. This site has sat with nothing for years now and the problem is that the people think there will be more cars? This is ridiculous. We need jobs and the City needs to approve this now! Who is saying they no want this? I talk to community and they want something not nothing here at this place. Person who is doing this is not from community.

This site has sat with nothing for some time and is taken by homeless. We need it to get opened up and get something in here. We need lights at night and we need money and business. We want this project! It's good food, and good price.

LA City Council Planning and Land Use Management Committee,

Please approve this project ASAP! We have waited for too long for something to get built here at Sunset and McCadden. This site needs to be developed and Raising Cane's is the perfect business.

I live in the neighborhood and have been avoiding this block for months now because of the homeless encampments. Someone is going to get hurt and there is no one to stop all of this! I cannot take my family down the street here and we are embarrassed to live in a neighborhood with boarded up buildings.

PLEASE approve this project now!!!

Kat
