**Council File No:** 20-0472

**Comments for Public Posting:** My name is Max Nagler, a proud third generation Angeleno and I am have called in to support Item 14: Council File 20-0472 I have worked in the entertainment industry since college and have recently lost my job due to the COVID-19 pandemic. Over the past several months it has become increasingly harder for me to continue to make my rent payments on my storage unit due to the lack of income, last month alone I paid over 800 dollars which is more than 50% of my stimulus check in late payments and fees to my storage provider in fear of my unit being auctioned off leaving me with less money to pay necessities such as rent, food, and household items. I hope that this can be changed to give people like to prioritize the essentials without having the fear of losing my belongings. Thank you.
