Item Number: 12A

Summary: The STNC is in favor to help restaurant business startup faster but we do have the following concerns: Complaint log required but does not give assurance this will be done. o A log of complains should be somewhere online. Current draft ordinance does not have a clear standard for enforcement. What is the consequence of non-compliance, such as removal of their license? o It does not state for how long, do we want to state a time frame after a violation. (ff1 and ff2) to be corrected. City inspection should take place annually. As soon as the applicant files, notice should go out to the Neighborhood Council(s) and neighbors within 500 feet by mail and on the Early Notification System sent out by the City Planning Dept. Neighborhood Councils must be allowed a voice in what is best for their community particularly sensitive areas. The department responsible for the regulation and enforcement needs the capacity to ensure the prescribed standards are enforced. Limit hours of service of alcohol from 9 am to 11 pm daily.
