**Comments for Public Posting:** There should be a clear file number for general comment. This council is clearly trying to suppress its constituents being able to speak out against the gross incompetency and deep sadism of the LA City Council. It is disgusting you are even considering cutting the LA Homeless Services Authority when you only considering cutting a measly 5% of the \$3 billion LAPD budget. Stop cutting useful programs to fund your fascist, racist army. Adopt the People's Budget immediately. Every council member should resign for gross incompetency alone, not to mention the clear white supremacy shamelessly exhibited by many members of this council. Stop making excuses, boldly lying to our faces, and take fucking responsibility for your inane handling of this city. It's not the county's job or the state's job to make sure you're funding programs that help citizens: IT IS YOUR FUCKING JOB. You have more power than any other city council in the country and the fact that all of you are constantly trying to pass the blame onto some other ineffectual bureaucrat is deeply offensive and without a single shred of dignity. Support your citizens, not murderous Nazis.
