

CITY OF LOS ANGELES
INTERDEPARTMENTAL CORRESPONDENCE

Date: August 8, 2018

To: Holly L. Wolcott, City Clerk
Office of the City Clerk
Room 360, City Hall, Mail Stop No. 120
Attn: Sharon Dickinson

From: 
Edmond Yew, Manager
Land Development and GIS Division
Bureau of Engineering

Subject: **Council File 06-2468, VAC E1401012 – Via Las Vegas Vacation District
(Re-application)- Technical Correction to 11/29/2016 City Engineer's
Report**

Following the applicant's request to amend Condition 5 of the City Engineer's Report dated 11/29/2016, our office reviewed the site and existing conditions and do not object to the request.

We recommend the following technical corrections to the report:

Amend Condition 5 (1) to read as follows:

Construct a 30-foot wide half roadway along the easterly side of Mission road (Avenue I) adjoining Lot 32, Block B, Clement Tract. The improvements shall include new integral curb, gutter, 12-foot wide concrete sidewalk and asphalt concrete pavement and landscaping or a full width concrete sidewalk.

Delete Condition 5 (2) and Condition 5 (3).

Please contact me with any questions.
