Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,  
Darren Stamps

I'm a resident of Venice, California, where Bird did one of their first dumps of the scooters. The general consensus? A very small percentage of people, mostly Millennials, favor them.

Everyone else hates them. With a passion. While the idea is a good one, the application is horribly flawed. Bird operates on the principal that it is better to beg for forgiveness than ask for permission. Take a look at the response from the cities on the West Coast where the Birds & Lime scooters have invaded.

The business model is to dump the product on the streets of a city with no warning, and sort out the problems later.

90% of the riders feel they are entitled to ride wherever & however they please. On the sidewalk at the full speed of the scooter, which is 15 mph? Yup. Riding against traffic in the bicycle lane? Yup. Ignoring stop signs & traffic lights? Yup. Riding without a helmet? Yup.

And if you're in their way? Too bad. If you don't move out of their way they will hit you, and likely leave the scene of the accident (which I believe is a hit & run felony here in California) and continue on their merry way.

On the local Nextdoor, which focuses on a small area affected by the scooters, there are numerous threads about scooter hate, some of them with close to 300 posts. And yet not one thread on scooter support.

And once the rider has finished their ride they have a tendency to leave them in the middle of the sidewalk, or a driveway, or a handicapped parking spot. They just don't care if they inconvenience anyone else. In an hour long walk along Venice Blvd going west from Lincoln, and heading north on Main Street you will see scooters everywhere. Some are parked so they don't hinder pedestrian traffic flow, but I would say 40-50% do block the sidewalk.

I hope the city will step up & do something to address these issues.

**"It seems that perfection is attained not when there is nothing more to add, but when there is nothing more to remove."**

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,  
Jessica Hayden

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,  
Jeremiah Wickstrom

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Prime example today: I rode Bird from Inglewood and Culver Blvd. to the Culver Station and took the metro rail to tonight's LAFC game. LA is changing and I'm proud of the progress you all are making and hope that other start-ups like Bird has support from LA's amazing leadership team.

Thank you,

Demonte "Tray" Thompson

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,  
Clayton ward

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city.

I want to let you know that I do not support shared electric scooters. These innovative new modes of transportation are a public nuisance. They are left on sidewalks haphazardly and riders ride dangerously hitting and injuring others. They are a danger to the riders as well, most of whom ride without helmets in violation of the law. Although we do need to plan for a more sustainable future, we need to beware of causing a greater amount of harm to other innocent members of the community.

Thank you,  
Brian Kuo

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Foremost they are fun! We just need some guidelines on how and where we can ride safely.

Cars used to spook horses but in the end the cars prevailed.

I hope it will be the same with this new way to transport people!

Thank you,  
Karen Rohr

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,  
Chris Pards

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,  
Conor Burke

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic. If the city of LA isn't going to improve its poor public transportation system, (walkable distance bus stops on every block with no bus lanes and terribly inefficient train services (1hr ride from downtown santa monica to culver city?! wtf)), then it should definitely advocate for Bird!! Uber is taking up the street and killing our environment too, the city of LA needs better solutions, and Bird is one of them.

Thank you,  
Donnelle Branche

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,  
Michelangelo Pinto

Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,  
Benjamin Goyette

Dear Mayor and City Councilmembers,

Honestly I'd rather say my own piece. I ride my bike to work every day. From Hoover and 8th to La Brea and 1st. This city is a nightmare for those of us not in cars. Not so much because distance is vast and days are hot but because motorists drive dangerously vast and unaware of cyclist, pedestrians ect. The bike lanes are not divided or even decently marked, people are not forced to learn about bike safety to get license. This world is rapidly changing. The sedentary life, pollution and damage and cost to our cities is fundamental not sustainable. I've only used Bird twice but even if is risky and it's accidents are obvious. How many people Die in Los Angeles county due to cars, drunk driving and of course air pollution. This is a step in the right direction even if a seemingly wild one. Cars seemed similarly reckless in the early 1900s. I dare say I do believe the naysayers of the horseless carriage might have been correct. Don't be on the wrong side of history, or good business.

-Giovanni Gieco
